INTRODUCTION

This Report supersedes and is a revised edition of NBSIR 86-3428, July 1986, entitled Data Bases Available at the National Bureau of Standards Research Information Center.

Data bases are listed by acronyms and by full titles. Citations also include data base dates of coverage, brief descriptions, kinds of information each contains, producers, the titles of corresponding hard copy, and vendors. A list of vendors with addresses and telephone numbers precedes the list.

The General Subject Index is arranged alphabetically by subject categories and the Cross Reference Index lists variant forms of the names of the data bases in the left column with cross references to the name of the data base used in this Report on the right.

If you are an NBS employee or an NBS associate and are interested in a literature search, call extension 3052 or see an Information Specialist. Also, for additions or changes that have occurred since the publication of this Report, please contact an Information Specialist.

I wish to acknowledge Carolyn Kline's able assistance and diligence in preparing this Report.
